

Pharmawaste Expert™ Software

Pharmawaste Expert™ is a value-added online pharmaceutical destruction recordkeeping service available only to Strong Pharmaceutical Services clients. Pharmawaste Expert is a **readily retrievable** controlled substance database that serves as the primary source of recordkeeping for all pharmaceutical destruction events. The enterprise client-server architecture means all users in both local and remote corporate locations share data in real-time.

This acclaimed proprietary software brings organization to problematic DEA and ARCOS recordkeeping and reporting. **Expect to automatically generate destruction reports in minutes—saving valuable time, eliminating data redundancy, increasing accuracy and ultimately simplifying your workload.**

Pharmawaste Expert's feature set includes:

- Instant access to information during FDA and DEA audits
- Audited fields to document and record all field modifications

Audited field history for:
Lot Group Temp Pack Qty

Mod Date	Mod Time	Mod By	Old Value	New Value
03/08/05	14:56:55	Celeste Arm	150	151
03/08/05	14:53:02	Terry Kilgor	1	150
02/15/05	10:18:00	Terry Kilgor	15	1

Done

- All ARCOS information displayed for controlled substances present in an NDC product

ARCOS Controlled Substance Content

Nº	Ingredient	Salt Nº	Drug Nº	Base (g)	Qty (g)
1	MORPHINE.S04 PEN	9330	9300.010	.04512	28.6963

- Custom reports generated according to your criteria

DRAFT-Review only (not for reporting)

- Exportable to *Excel*, *Access*, *Notes* ...
- Regulatory fields for characterization by NDC of DEA, FDA, RCRA and DOT classifications
- Ability to edit the user's own universe of NDC numbers
- Archival destruction photos that can be instantly viewed and downloaded
- Searchable custom fields include: lot number, source, cause and comments
- Barcode printer and scanner integration
- *Pharmawaste Expert* has encryption and security features in place to allow confidential information access available to only authorized parties. User levels are established to ensure that privileged information is disseminated only to approved parties
- Improvement for 2008: "Mass Balance" of entire quantity of DEA (or any) ingredients!

Benefits of using Strong Pharmaceutical's *Pharmawaste Expert* software are numerous and continue to grow as we make improvements to the program. Our recent addition of Microsoft's industry-standard *Terminal Server* technology provides increased speeds of data input into *Pharmawaste Expert* and faster report generation, without compromising the security features already in place.

Some quotes from *Pharmawaste Expert* users:

"Awesome–this is the most efficient solution to keeping track and reporting all this..."

"We used to use *Word*, *Excel* and *Access*. Now that we use *Pharmawaste Expert*, we have no cut and paste and all changes are tracked so we can see what the prior values were – *Excel* can't do that!"

"Our DEA auditors were in awe that we had answers to their questions in minutes versus days. They left very impressed."

With over seven years of development, *Pharmawaste Expert* **overcomes the obstacles** often associated with the compliance component of pharmaceutical destruction. We believe that continuously investing in value-added services like *Pharmawaste Expert*, allows Strong Pharmaceutical Services to remain the leader in Witnessed Pharmaceutical Destruction.
