

Protecting People. Reducing Risk.™

Who We Are

Strong Pharmaceutical Services, a division of Strong Environmental, Inc. (a Stericycle company), is the leading provider of destruction services to the pharmaceutical industry. Our experienced professionals manage and ensure the appropriate witnessed destruction of DEA controlled substances, as well as proper disposition of RCRA hazardous and non-hazardous finished goods and manufacturing wastes. When we take control of waste materials at your shipping dock, they become our full responsibility.

Waste Technologies

Pharmaceutical Incineration Benefits

PROBLEM

Making the proper choices for disposal of your pharmaceutical products is critical. Whether you currently dispose of product or waste via waste water treatment or landfill, careful consideration must be given as to what technology you employ.

SOLUTION

Strong suggests incineration. Some reasons for reconsideration of the destruction of your product may include:

- Destruction to ensure non-entry to marketplace
- Corporate and local community pressure to reduce land disposal

Manufacturers, distributors and retailers of pharmaceutical products must manage the proper disposal decisions associated with:

- Prescription drugs
- OTC materials and commodities
- Non-DEA controlled substances
- R&D, QA and retains

You may encounter off-specification, expired or returned product. Our permitted incineration facilities are capable of accepting waste in these forms:

- Prepackaged returned goods
- Pallets
- Drums
- Roll-offs
- Mixed haz/non-haz/DEA

Benefits of incineration versus landfill include:

- Complete destruction
- Certificate of destruction
- Cradle-to-Grave
- No re-entry to marketplace
- Cost competitive
- Energy recovery

Benefits of our incineration program in comparison with others:

- Specially designed for pharmaceutical waste
- Solids, sludges, liquids, and gases accepted
- Option of controlled burns for certain substances
- No cross-contamination option
- Eliminate fugitive pharmaceutical powders
- Long residence time

Our state-of-the-art facilities allow you flexibility in choice through a single source.

Our goal at Strong Pharmaceutical Services is to find the right match that addresses both challenges to the generator, namely waste reduction and cost minimization. Contact Strong and allow us to respond to your individual destruction needs.
